25X1 25X1 25X1 25X1 25X1 25X1 25X1 25X1	Comment. The present information is confirmed by order of the Soviet transportation headquarters, of 28 January, shuttle trains for training purposes had to be assembled. Of these trains, shuttle train had to be used available at the Satzkorn railroad station for 1 February.  It is believed that, following the loading exercises of units of the 10th Cds Tank Div from Krampnitz, units of the 63d Gds Tank Regt of the division from Brandenburg were to conduct similar practices.  Comment.  Comment.  Units of the 9th Gds Tank Div as well as units of the 2d Light Arty Brig (US) held exercises in the area north of Neuruppin from about 12 to 15 February 1953. The return of divisional units was observed in the Neustrelitz military post from 15 to 7 February 1953  As units of the 495th How Bn (US) of the 9th Gds Tank Div from the restricted area on Gerhart Hauptmann Strasse and units of the 234th Mort Regt of the division from	
25X1	the Alte Grenadier Kaserne were apparently not back by 20 February, it appears that these units received other assignments upon completion of the exercises. Definite evidence from Neuruppin military post showed that units of the 12th Gds Tank Div were not involved in these exercises.	
25X1L	Comment. It is believed that motor vehicles of the 6th Gds Mecz Div were loaded on 14 February. It could not be determined whether the SECRET,

train went to Templin where, since January 1953, units of the 6th 6ds Mecz Div and other units engaged in combat firing practice, or whether it went to the area northeast of Rathenov, where elements of the Fourth Gds Necz Army held winter exercises from 17 to 20 February.

The oulk of the units involved in the 25X1 exercises northeast of Rathenow, however, went there by road. The trains on 15 and 21 February carried units of the unidentified army AT artillery brigade of the Fourth Gds Mecz Army which, [ transferred from Bernau to Doeberitz on 25X1 15 February and returned to Bernau from exercises northeast of Rathenow on 21 February. . It is believed that the 25X1 signal communication unit of the Fourth Gds Necz Army or GOFG, carried in the cantonment on Breidscheitstrasse, may have left for the army training area prior to the be in of the exercises, in order to prepare communications.
